4. Please provide details of amount in kg of household waste (black bins) collected in 12 months following introduction of fortnightly waste collections.
5. Please provide details of amount in kg of household waste deposited at Eastern civic amenity centre in 12 months prior to introduction of fortnightly waste collection.
6. Please provide details of amount in kg of household waste deposited at Eastern civic amenity centre in 12 months following the introduction of fortnightly waste collection.

Response:

Please find enclosed a copy of the information requested. Alternate Weekly Refuse Collections were implemented in November 2022. It is therefore not possible to provide complete answers to questions 2, 4 and 6 at this time as we have not yet reached the 12-month milestone since the change in service. The data requested for the 12 months prior to implementation of the service has been provided in its entirety.
